General Revnolds them made a short introductory address, at the close of which the beautiful statue was unveiled by five young women, each of whom is the daughter of a veteran belonging to one of the five Grand Army posts in this city. The oration was then delivered by President Hill, of the Rochester University, and the poem read by Samuel H. Lowe. President Harrison and Governor Flower each made an address. The benediction was pronounced by Rev. Dr. Asa Saxe, pastor of the First Universalist church. A feature of the occasion was the singing interspersed through the exercises that was furnished by a chorns of 100 mixel voices under the direction of Mr. Wilkins and by German-American singing societies directed by Professor Pabst.

Good Weather-Universal Observance.

Washington, D. C., May 30.—As far as heard from good weather prevailed to-day throughout the country, and it would seem that greater preparations had been made for Memorial-Day than ever before, for the dispatches record a universal observance throughout the North. The favoring weather contributed to make the out-door ceremonies unusually impressive and successful. The great cities out-buildings as those which they then owned should be built on the large estate about one mile from the existing homestead; that the land should be equally divided between the brothers by a competent surveyor; that no transaction of a business nature should take place on these farms between the worthers; that the family of Chang should live in one house, whilst the wives occasionally visited each other it is worth noting that for Brooklyn had the advantage of numbers and greater opportunities for display, but the other large centres of population ac-quitted themselves with equal credit.

Farmer Yates was fond of the chase. Living in good, cid-fashioned style, with plenty of negroes and dogs, raising supplies of all kinds, and surrounded by a large family, he took life easy and made it pleasant for the twins, who boarded with him for a considerable time. Whilst there Eng Bunker became greatly attached to Miss Sallie Yates and Chang Bunker lost his heart to Miss Adelaide.

Some time between 1835 and 1849 a double marriage took place at the residence of Father-in-Law lates, and the twins commenced their married life on a farm which was in easy distance of their wives' old homestead. Here they lived happily, farming part of the time and at intervals going on the road with Barnium and others, returning home occasionally to their family

WHY HE STAYED IN BED. Allusion has been made to the cheerful disposition of the twins. They were lively and very fond of a joke, and several might be related did space permit. Two will suffice. On one occasion, while driving through the neighborhood in a buggy, they were thrown out, resulting in one being barlly bruised, whilst the other escaped without a scratch. It then became necessary for the injured twin to remain in bed for a week, and, of course, his brother had to do likewise, explaining to a friend who called to see them that he stayed there to look after his brother and keep off, the flee. keep off the flies.

HAD NO TICKET.

The other joke occurred on a trip they made from Greensboro' to Raleigh. Before starting Eng purchased one ticket: they then boarded the tram, and after awhile the conductor came around for tickets. Eng handed his up, but Chang, with a merry twinkle in his eye, remarked: "I have no ticket, and I have no money." Then when the conductor threatened to put him off Eng interposed and told him that could not be done, as he (Eng) had given up his ticket. At this the passengers raised such a laugh that the conductor concluded to pass Chang, whose passage was, however, soon after properly paid, for in all dealings they were strictly honorable. So far as can be learned their lives at their homes were irreproachable; they were virtuous, temperate, scrupulously honest, sociable, charitable, and whilst never having professed religion they often attended church; their manners and dress were those of gentlemen, though their education had been gained almost entirely by travel. They were naturalized citizens and regularly voted the Democratic ticket.

When the war ended it found them with forty or fifty slaves, and, though these of course were liberated, they had hidden supplies of gold which carried them comfortably through. This fact was well known, and after Stoneman's raid through that section the twins were one day surprised by a camp-follower who forced himself into their presence and demanded their gold. At a meeting of the Intercollegiate Foot-Ball Association at the Fifth-Avenne Hotel, New York, recently the various rules governing the great college game were discussed and several important changes were made. The first rule discussed was No. 32, which is as follows: "A side which has made a touchdown in their opponents' goal must try at goal, either by a place kick or a punt out."

To this rule an addition was made that will materially alter the complexion of the game. Following is the sapplemental rule adopted by the convention:

"If the try for a goal from a touchdown be missed the ball must be brought to the centre of the field and given to the defenders of that goal."

The addition to the rule is a wise one in every sense. Heretofore the ball has been brought out to the 25-yard line by the defenders of the goal and put in play. The amendment will greatly increase the scoring chances of the weaker teams. The next rule discussed was No. 34, which reads as follows:

"Rule 34.—If the try for goal be by a punt out the punter shall bring the ball up to the goal line, and, making a mark opposite the spot where it was touched down, punt out from any spot behind line

A new rule was then added to the code which will have a tendency to do away with the noisy coaching of substitute players and partisans along the side lines.

The rule is as follows:

"The unpire shall warn any man coaching from the side-lines. Upon the second offence the offender shall be ordered behind the ropes or fence, as the case may

be."
There were no Harvard men present, and the crimson was not discussed in any way. Both Phil. King, of Princeton, and McClung, of Yale, spoke enthusiastically of the outlook for the coming season.

Garza Goes to San Domingo.

(By telegraph to the Bispatch.)

Jacksonville, Fla., May 30.—A special from Key West to the Times-Union says: It is rumored here (and the rumors seems to come by authority) that Garza, the Mexican bandit, who has undoubtedly been in this city for several weeks past, left for Havana Friday night en route for San Domingo. All sorts of rumors have been circu axed about him for the past week or ten days, but nobody seemed to know positively from what sources they came. No attempt was made to arrest him, and it is not known positively whether there was anybody here for that purpose. That he was here, and could have been arrested if wanted, is an undoubted fact, but he is now cutside the jurisdiction of this country, and if wanted by the Mexican Government will have to be sought in San Domingo.

DONE FOR IN TEN ROUNDS BY THE NEGRO JACKSON-

The Fight in Detail-The Result a Sa prise-The Contest a Fair One-Other Points.

London, May 30.—Peter Jackson, the colored pugilist, whipped Jim Slavin in ten rounds to-day. It was a complete knock-out. Slavin was the favorite in the betting at all sorts of odds, heavy amounts being up at 5 to 2.

London, Mey 30.—It was ten minutes after 11 o'clock when Jackson and Slavin made their appearance in the ring to begin

made their appearance in the ring to begin the fight. The usual preliminaries occupied only a few minutes. In the first round Jackson led off with a light tap on Slavin's body. Prolonged sparring then ensued. Slavin did not ferce the fighting at a great rate, as he had been expected to do. Jackson, though he did not hit with much force, kept his long left arm constantly in Slavin's face. Twice Slavin clinched and was ordered by the referee to break away. He then tried to land his right on Jackson, but the latter jumped away, and the round ended very evenly.

Second Round—The instant time was called Slavin made a savage rush at his antazonist, as though he intended to annihilate him. But Jackson always had his long left arm in Slavin's face. Three times Slavin rushed to close quarters, with the same futile result. Jackson then took the initiative, and drove his left and right in quick succession on Slavin's body. Slavin appeared to be tiring as the round closed.

INTENSE EXCITEMENT.

Third round—The round opened amid intense excitement. Jackson kept prodding Slavin in the mouth and left eye, and the eye began to show signs of closing. Slavin kept began to show signs of closing. Slavin kept bearing in, buttry as he would, he always failed to land his dangerous right on his antagonist. In the last minute of the round a splendid rally occurred, when Slavin hit harder and Jackson struck more frequently. Both were hard at work when time was called. Many bets were won and lost at this stage of the contest, as many wagers had been made that the fight would not last three rounds.

Fourth Round—After the call of time Slavin was the first to get to work. Jackson seemed to have already taken his rival's measure. Every time Slavin rushed he met the negro's left, Jackson having a shade the best of the exchanges.

Fifth Round—Both men started in and fought through the round at a terrific pace, each doing his utmest to win.

Sixth Round—Slavin worked Jackson into a corner and landed two heavy blows on his ribs. The negro jumped out and landed a swinging left and right on Slavin's head.

SLAVIN'S PEEFER CLOSED.

Seventh Round—Jackson, time after time, banged his left into Slavin's face, and before the round was half over Slavin's left eye was nearly closed.

Eighth round—Jackson was now perspiring freely, but he seemed to be fresher than his opponent. Jackson again banged away at Slavin for all he was worth, and had the best of the round at the finish, odds of six to four being laid on him at the close.

Ninth round—Slavin made a grand effort to keep on equal terms with Jackson, but

JACKSON THE VICTOR.

Tenth Round—Slavin came up very game, but he was weaker than he looked. After a few exchanges, Jackson landed a swinging right-handed blow on Slavin's throat, sending him against the ropes, Before Slavin was able to recover Jackson was on him with both hands. Slavin became dazed from the effects of this terrible punishment. The negro fought him all around the ring and succeeded in knocking him out in the first two minutes of the round. Jackson was then declared the victor amid terrific cheering.

Jackson tipped the scales at 196 pounds and Slavin at 185. Jackson's seconds were "Parson" Davies, Joe Cherinsky, and Del-Young. Slavin's seconds were his brother Jack, Tom Williams, and Iom Burrows. Mr. Angle was referee. All the arrangements for the fight were admirable, and the contest was one of the fairest seen in a long time.

Members of the bar held a meeting at the court-house to-night and appointed a committee to wait on the Governor and recommend Mr. Roy B. Smith, Commonwealth's attorney, for the position just vacated. Mr. John W. PORTLAND, ORE.. May 30.—In the Presbyterian Assembly this morning after unimportant business, Judge Ewing introduced the following paper in the Briggs case. It is mainly formal and is only important in its operation: "The General Assembly, having on the 28th day of May, 1892, duly sustained all the specifications of error alleged and set forth in the appeal and specifications in the case, it is now ordered that the judgment of the Presbytery of New York dismissing the case of the Presbyterian Church in the United States of America against the Rev. Charles A. Briggs, D. D. be, and the same is hereby, reversed, and the case is remanded to the Presbytery of New York for a new trial, with directions to the said presbytery to proceed and pass upon and determine the sufficiency of the charges and specifications in their form and legal effect, and to permit the Prosecuting Committee to amend the specifications and charges, not changing the general nature of the same, if, in furtherance of justice, it be necessary to amend them so that the case may be brought to an issue and tried on its merits as speedily as may be practicable."

The rest of the recommendation is unessential to the main issue. [By telegraph to the Dispatch.]

The marriage of M. Victorien Sardou.

The family of the celebrated dramatist, Victorien Sardou, the author of "Theodora," "Fedora," "La Tosca," and other plays all more or less famens and successful, is a singularly interesting one, writes lavely Hamilton Hooper in a delightful sketch of the wife of the famous dramatist in the June Ledies Home Journal the elder Sardou has recently celebrated his 90th birthday, he preserves his faculties unimpaired and is never so happy as when he can enjoy the society of the children of his world-renowned son and of that centleman and his wife as well.

The elder Sardou lives at the town of Cannet, near Cannes, in one of the most beautiful sites of the Riviera, and he is the owner of the house in which the great ragic actress, Rachel, breathed her last in 1858 after a long times, from which are trajectories from the delar sardou, the author of "Theodora," "Fedora," "La Tosca," and other pictories Sardou, the author of "Theodora," "Fedora," "La Tosca," and other pictories Sardou, the author of "Th

had vainly sought relief in that delicious chimate.

The marriage of M. Victorien Sardon was as charming a love episode as may be found in any of his plays. He was approaching middle age, and was considered as being wholly absorbed in his literary labors to the exclusion of any other passion, when the Parisian world was amazed by the announcement of his engagement to fille. Anne Soule, daughter of M. Eudore Soulie, chief director of the galleries and the palace of Versailes, and also of the royal library and the national archives contained therein.

The Disparch says to the Chicage convention, "Give us a winner," A B, says give us something to fight for and we will win. And here is something to fight

To the Editor of the Dispatch:

1. Free silver.
2. Abolition of national banks.
3. Increase of the currency, and the issue of all money by the government directly to the people.
4. Tariff reform.
5. A graduated income-tax.
6. Rigid economy in the admistration of the government.
7. America for Americans.
Give us this platform and a man who can stand squarely upon it, and you will have given us "a winner," and a winner who will be worth something. Every syllable of it is true Jeffersonian Democracy, and no man is worthy of the name of Democrat who cannot stand upon it.

He Liked the Smell.

[Texas Siftings.]

"Don't you love the smell of a good cigar?" inquired an Austin antipode of Vanderbilt of Gus de Smith.

"You bet I do." replied Gus, his face brightening with anticipation.

"Have you got 10 cents about your person?" inquired the first speaker again.

"Yes; what of it?" asked Gus.

"Well, you give me 10 cents, and that with the money I have will purchase a prime cigar."

"But what will I get?" said Gus.

"Why, you'll get the smell, which you gay you dote upon so much."

It Was Daniel's Day.

[Special to the World.]

The greatest victory of the day, however, was that of Senator John W. Daniel.
The Cleveland managers on Wednesday magnanimously, as they thought, proposed to allow Senator Daniel to go to Chicage provided he would consent to the State convention endorsing their candidate. Mr. Daniel not only indignantly rejected this proposition, but from the very start he upset the plans of the Cleveland men, defeated their candidates, and at the closslast night had turned the convention into an enthusiastic Daniel following.
